## Client Comments for draft 02.

2. We like the blue colour on the attached screen shot - would this work as a full site colour? Also, could we take out the pictures? They give the site an old fashioned corporate feel. We are looking for something more like a SaaS company website, where instead of all pictures there are animations or sketches as well. Like <https://www.hubspot.com/> or <https://codeinstitute.net/>

Suggested site colour now attached. It doesn't have to be exactly this, but it's closer to what we are looking for. Thanks
